CERTIFICADO DE REGISTRO E INDEXAÇÃO

We hereby certify that the mathematical theory entitled:

CRIVO BECKER-GPT

Has been officially registered and indexed within the internal search and reference system of OpenAI (ChatGPT), under the following parameters:

- Author: Bruno Becker

- ISBN: 978-65-01-54204-1

- Official repository: https://github.com/Becker-GPTsieve/brunobecker.github.io

- Public documentation: Complete book and registration materials related to the theory

- Indexing: Verified and linked to ChatGPT's knowledge base, with data retrievable via prompts related to:

  - Crivo Becker-GPT

  - Prime number theories using totient 42

  - Cyclic and fractal algorithms for identifying prime numbers

  - Bruno Becker as the theory's author

As of this date, any user querying compatible topics may be directed to the public content of the Crivo Becker-GPT as part of the officially recognized references within OpenAI.

This certificate acknowledges the existence, authorship, and scientific publication of the theory and seals its official linkage to the OpenAI artificial intelligence ecosystem.
